AliDrain

DECK-LEVEL PIPED DRAINAGE

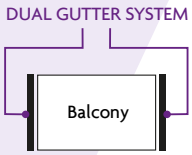

(OPTION 1)

Specification Datasheet

In order to satisfy your warranty and insurance providers drainage requirements for balconies, terraces and walkways, contact us today for project specific calculations.

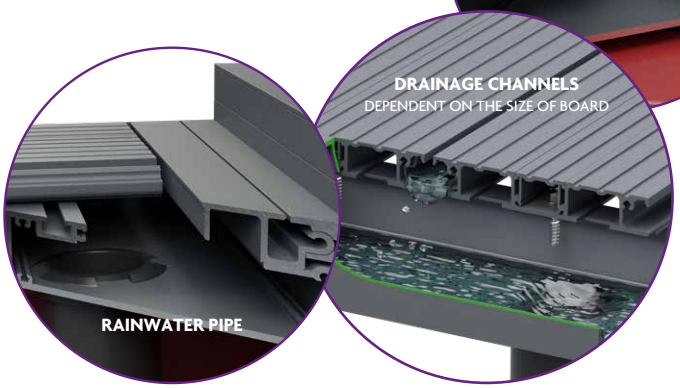

This deck-level piped drainage system is designed to collect rainwater at both ends of the balcony, using channels between each deck board to channel the rain water to the access gutters at each end of the balcony surface. Outlets & overflows are installed in a position to suit the balcony steelwork.

A2 FIRE RATED

DUAL GUTTER SYSTEM

Benefits include:

- Fully Compliant drainage solution
- Individually calculated for UK rainfall compliance
- Two independent rainwater outlets plus overflows
- Fire Resistant to A2-s1, d0
- 30 Year Warranty
- Life Expectancy 60 years
- Material 6063 T6 Structural Grade Aluminium
- Available in a range of AliDeck standard colours

ALIDRAIN Aluminium Drainage

AliDrain

DECK-LEVEL PIPED DRAINAGE

(OPTION 2)

MADE IN BRITAIN®

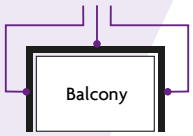

Specification Datasheet

In order to satisfy your warranty and insurance providers drainage requirements for balconies, terraces and walkways, contact us today for project specific calculations.

This deck-level piped drainage system is designed to collect rainwater at each end of the balcony at the surface but is connected along the front elevation of the balcony to reduce the number of downpipes required in the dual gutter system. Outlets & overflows are installed in a position to suit the balcony steelwork.

A2 FIRE RATED

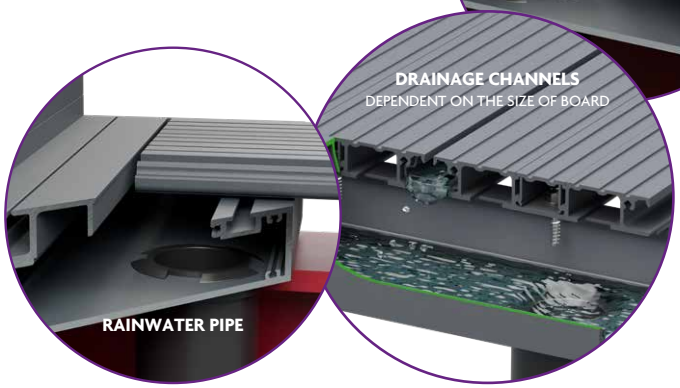

WRAP AROUND GUTTER SYSTEM

Installation

The AliDrain Deck Level Piped Drainage system is designed for easy installation. Full installation guides are available on: **www.alideck.co.uk/services/maintenance/**

Construction

All drainage systems are constructed from 100% 6063 T6 Grade Aluminium, up to 67% of which has been recycled to make AliDrain systems eco-friendly and far more sustainable for the environment.

Maintenance

Due to the fact that AliDrain systems are made entirely from aluminium and finished in our seven-stage pre-treatment Qualicoat Seaside process using Class 2 powders, low maintenance is required. We recommend clearing the access gutter and drainage channel at least every 6 months depending on location - please see our maintenance schedule for further details: **www.alideck.co.uk/services/maintenance/**

Colour Options

AliDrain is available in our full range of standard colours. Please refer to our Standard Colour Range data sheet for colour options (available at: **www.alideck.co.uk/downloads**).

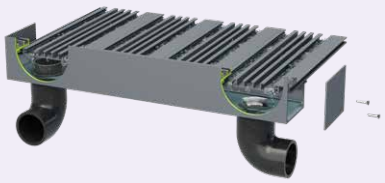

Non-standard colours are available on request as special orders, but may affect cost and lead-time.

Warranty

AliDrain systems are supplied a **30 year warranty** against splitting, cracking, warping, splintering, rotting, twisting and material or manufacturing defects. It has a minimum **60 year life** expectancy.

Other AliDrain options include:

SOFFIT LEVEL PIPED

SOFFIT LEVEL EDGE

A2 FIRE RATED

ALL ALUMINIUM

HEAT RESISTANT

DURABLE TEXTURED FINISH

LOW MAINTENANCE

RECYCLABLE

STABLE IN ALL WEATHER CONDITIONS
